

## The benefits of using OSFLO Natural Fertiliser

### Naturally Balanced Fertiliser

OSFLO contains a rich balanced supply of all natural essential elements to promote and sustain healthy plant growth and profits.

### Organic Fertiliser

OSFLO contains high organic matter which improves the soil physically, chemically and biologically.

### Nitrogen Content

Part of the nitrogen content of OSFLO is available immediately therefore it is a fast acting fertiliser. The remaining nitrogen is released slowly giving sustained nitrogen activity which is beneficial to the plant and the environment. Extensive trials have proven that this will occur.

### Improves Soil pH

Regular applications of OSFLO will increase the soil pH.

### Increased Earthworm Activity

Regular use of OSFLO provides an excellent environment for casting earthworms. Earthworms are important for returning leached elements and nutrients back to the plant root zone. Earthworms also increase soil aeration which helps plants establish a deeper rooting system.

### Encourages Soil Micro-organisms

OSFLO encourages desirable soil micro-organisms and the turnover of soil nitrogen and other nutrients is often stimulated through this increased biological activity.

### Fertmark Registered Product

The Fertmark Programme was established to give consumers confidence in the Quality of Fertilisers. Customers can be confident that Fertilisers supplied from Fertmark Registered Companies are reliable and if used correctly do not pose hazards to food safety or animal welfare.

### Dairy Industry Approval

FONTERRA CO-OPERATIVE LIMITED approves the use of OSFLO as a Fertiliser for dairy farms.

### Cost Effective

OSFLO is one of the most cost effective fertilisers in Taranaki. It is a complete balanced fertiliser supplying over 13 essential plant nutrients.

### Proven Performance

OSFLO has been servicing customer needs in Taranaki for over 30 years. Awareness of OSFLO and its benefits is growing all the time. We will be happy to put you in touch with customers so you can 'check it out' for yourself.

BioGro #4841

**Natural Balance of Essential Elements  
Organic Fertiliser - The Environmental Solution**

**Osflo Organic BioGro Certified**

The Complete *Natural* Fertiliser

Chicken manure has for many years been recognised as a valuable fertiliser. It is widely sought after for use in pastoral agriculture and intensive cropping enterprises.

### Quality

OSFLO's quality control programme ensures that all product is tested and we can guarantee the nutrient ratings to our customers.

The independent mark or quality assurance is your guarantee that what we say is what you get.

The dairy industry (Fonterra) approve the application of OSFLO fertiliser on dairy land.

**Osflo Organic** is approved for use on BioGro certified properties.

BioGro #4841

### Product Range

- Osflo Standard
- Osflo Organic (BioGro Certified)

### General

OSFLO is suitable for all pastoral farms, cropping production systems and horticulture.

Specific recommendations should be based on soil and herbage test results. We can arrange this for you when required.

General application rates are as follows:

Dairy Pastures	1,250kg - 2,500kg per ha
Sheep / Beef Pastures	1,250kg - 2,500kg per ha
Cropping / Horticulture	2,500kg - 7,000kg per ha

### Product Use Information

It is recommended that pastures are not grazed for a period of 21 days after fertiliser application. (Industry Standard)

### Cost Effective

OSFLO is one of the most cost effective Fertilisers

### OSFLO Fertiliser Analysis

#### Major elements

		%
Nitrogen	N	3.3
Phosphorus	P	1.5
Potassium	K	1.7
Sulphur	S	0.3
Calcium	Ca	2.5
Magnesium	Mg	0.4
Sodium	Na	0.4

#### Minor elements

		ppm
Iron	Fe	590
Manganese	Mn	404
Copper	Cu	42
Zinc	Zn	440
Boron	B	21
Molybdenum	Mo	6
Iodine	I	4
Cobalt	Co	6
Selenium	Se	1
Organic Matter	%	47.7

All results reported on "as received" basis

### Product Additives

Vitec Sea/Base - Fish & Kelp  
 HuMate - High Performance Humate  
 Fine Lime

### OSFLO Fertiliser Nutrient Supply

When applied at 2,500kg per hectare

OSFLO supplies:

82.5kg N	Nitrogen
37.5kg P	Phosphorus
42.5kg K	Potassium

When applied at 1,875kg per hectare

OSFLO supplies:

61.8kg N	Nitrogen
28.1kg P	Phosphorus
31.8kg K	Potassium

### Excellent for

- Year round pasture application
- Hay and silage crops
- Organic production systems
- Rejuvenating young pastures
- Crop base fertiliser dressing
- Clover weevil pasture management

### Technical Customer Services

- Computerised fertiliser programmes & costing
- G.P.S. Farm mapping

- Soil & herbage testing
- Nutrient budgeting
- Fertiliser advisory service
